

**Advance Training on “ SMART Manufacturing”**  
**For Officers of Modern Coach Factory, Indian Railways**  
**Organised at AKGEC Campus**

Modern Coach Factory (MCF), is committed to a SMART Township, SMART Factory and SMART Coach approach duly striving with assiduity for quality Rail Coaches.

MCF in its endeavour to produce nearly 2000 Coaches per year, including LHB, Metro coaches and most modern high speed train sets, has been instrumental in developing technical competency of its Officers.

To provide technical insight of multidisciplinary tools and technologies operational in the field of Automation & Robotics, as a part of Smart Manufacturing Concepts, AKGEC Skills Foundation organised two weeks exclusive training program for ten ‘Young Railway Officers’ at AKGEC Campus Ghaziabad from 17<sup>th</sup> July’18 to 31<sup>st</sup> July 2018

Under this program participants were given opportunity to get technical exposure and hands on working experience at various Centres of Excellence operational at AKGEC Campus. Participants explored available high end Manual and Robotic welding processes, Reverse Engineering and 3D Printing Technology, Advance Manufacturing including Measurement and Metrology concepts. After successful completion of the training program, all participants were awarded with Certificate of Merit by AKGEC Skills Foundation.
