OBJECTIVE OF FDP

Technology is an ever-changing battleground and those needing to stay in-charge of development need to adapt. The current time has been characterized by the application and progression in information technology. Information technology has filled in as a major change operator in various aspect of business and society. The main aim of this FDP is to learn emerging trends in information technology and its related applications where people can explore new dimensions of research. This program will provide an opportunity to interact with various experts and eminent personnel of reputed Institutions and Industries. This platform will enhance the knowledge and encourage the faculty members and researchers working in different areas of information technologies such as Cloud Computing, IoT, Artificial Intelligence, Blockchain, Cyber Security, etc. The FDP will also be focusing on different research applications and various unresolved challenges in modern research areas.

ABOUT AKGEC

Ajay Kumar Garg Engineering College (AKGEC), Ghaziabad is affiliated to Dr. A.P.J. Abdul Kalam Technical University, Lucknow, and is approved by the All India Council for Technical Education. AKGEC was established in 1998 and offers B.Tech courses in ten disciplines of engineering namely Computer Science and Engineering, Information Technology, Computer Science, Computer Science & Information Technology, Computer Science and Engineering (Artificial Intelligence & Machine Learning), Computer Science and Engineering (Data Science), Electronics and Communication Engineering, Electrical and Electronics Engineering, Mechanical Engineering and Civil Engineering. B.Tech programs in Computer Science and Engineering, Information Technology, Electronics and Communication Engineering, Electrical and Electronics Engineering and Mechanical Engineering are accredited by NBA. The college strives for excellence and has been consistently maintaining excellent academic results and placements. The college has the distinction of being the only engineering college in the state of U.P. to have received approval from Department of Science and Technology (DST), Government of India, for establishment of Centre of Relevance and Excellence (CORE) in the field of Automation & Robotics. The program envisages a unique partnership between AKGEC and nine international industries to promote research, consultancy, project development and training in the emerging technological field of Automation and Robotics.

ABOUT THE DEPARTMENT

The Department of Information Technology has established a truly professional academic environment where sound and transparent teaching-learning processes are practiced by all stakeholders of the organization that helps in producing all-around competent, humane, and socially responsible industry-ready engineers who are capable of taking challenges from the ever-demanding multi-cultural industrial environment. At AKGEC excellence is the way of life. The department has committed to giving students an environment to nurture their talent into its fullest potential.
