

AJAY KUMAR GARG ENGINEERING COLLEGE, GHAZIABAD

STUDENT SATISFACTION SURVEY: GRADUATE-EXIT FEEDBACK PROCESS &

ACTION TAKEN

While taking feedback from the final year graduates, the following key points have been taken into considerations for collecting the feedback and also analysis has been done over the feedback:

- Ability to implement Hardware/software projects independently.
- Ability to conduct independent experimentation.
- Ability to communicate effectively.
- Ability to understand fundamental principles of communication Engineering and circuit design techniques.
- Ability to write a report and publish it independently.
- Ability to manage a team of people.

The feedback is also followed by the graduate-exit student's level of satisfaction on the following points:

- Quality of Program
- Availability of labs beyond syllabus
- Intellect enrichment
- Quality of Labs
- Financial Support opportunities
- Educational values
- Career services and placement

Some other key points have been noted:

- To what extent did the supplementary labs (Virtual lab, Tifac-core lab) help the student in enriching his/her knowledge base and practical skills.
- How would the student rank the instrument capability and availability to perform experimentation in the department labs.
- Suggestion taken from the student to get the improvement details regarding the department.
- Feedback is also taken for the Supervisory Committee Meetings for projects.
- Feedback is also taken in Technical Society/ Cultural society/ Departmental society/ Sports Event / Student Club/ Volunteer of any event/ Campaign, in which the student has participated.
