

## FROM THE HOD'S DESK

Dear Readers,

It is a matter of immense satisfaction and pleasure for me to announce the July-December 2022 issue of bi-annual Departmental Journal GLIMPSE.

The journal, in harmony with the college ideology of research orientation of faculty and students, provides opportunity to the authors to share their knowledge and research contributions as well as highlight the recent developments in the field of Computer Science and Engineering. It provides a diverse and enriching learning experience for the readers to update themselves on the various topics covered. I am certain that the readers will find the articles useful. Your suggestions and feedback for improvement of the journal are welcome.

I am thankful to all the authors and reviewers for contributing their time and effort without which the publication would not have been successful.

Best wishes

**Dr. Sunita Yadav**

Head of the Department

Department of Computer Science and Engineering

## FROM THE EDITOR'S DESK

**GLIMPSE** is an effort of Department of Computer Science and Engineering to update faculty as well as students about the future technologies and trends. **GLIMPSE** is a journal that focuses on the comprehensive and concise research on latest developments. The journal covers technical aspects and research updates to keep abreast the readers with latest in the field of Computer Science and Engineering. All the submissions are peer-reviewed by the panel of experts associated with **GLIMPSE**.

The goal of this issue is to provide readers with a concise perspective into the latest trends of the industry as well as academia. This issue covers the interesting topics like Cognitive disease prediction model for psychological disease prediction, AWS technology, Cloud computing Security Fundamentals, Integrity check in Biometric Images, Anti-Phishing System, Machine Learning Based Health Care Diagnostic Model, Opinion Mining and many more

I am sure this issue is certainly going to provide you an insight into the current trends and challenges of Computer and IT Industry.

**Dr. Pratima Singh**

Associate Professor

Department of Computer Science and Engineering
