**NOTICE****USE OF E-MAIL SYSTEM IN AKGEC**

There is a need for initiating and adopting a paperless approach for majority of our communications inside and outside the college.

It is well known that the world is steadily going digital and we are becoming a paperless society. Going paperless is not only good for the environment, it also saves our time and money. By adapting paperless communication, we will be able to reduce paper clutter in the offices and will be able to manage important documents effectively.

E-mail accounts of all HoDs, Deans, Section Incharges, Faculty members and Staff have already been created and credentials have been shared. By signing up the new email account, you will be able to receive e-mails containing official notifications, notices, reports and official memorandums issued by the Director and various departments / sections. All e-mail messages may have attached signed DOC / PDF files which may be viewed, downloaded to your computer, or in extreme cases printed at your discretion.

I would like all of you to use this official e-mail system for all inter and intra departmental communications. For effective utilization of the system and building confidence, it is important that the mail is viewed at least twice in a day.
