This is to certify that

**SHIVAM SHARMA of MCA**

has successfully completed a course on **“Project Based Learning”** and developed a mini project for course code: **KCA-353** based on it during odd semester 2023-24 at Department of MCA, Ajay Kumar Garg Engineering College, Ghaziabad.

During this course, he/she maintains attendance above 75%. The student demonstrated self-motivation to learn new skills and was able to complete the internship projects on time.

We wish the student all the best for the future endeavors.

## ACKNOWLEDGEMENTS

We would like to thank, first and foremost, our parents, for the unconditional and continuous support, through their thick and thin that they faced due to our project work. We would like to express our deepest gratitude to **Dr. Pallab Biswas**, Professor & Head, Department of Mechanical engineering, A.K.G.E.C, Ghaziabad for his guidance and support. We would like to especially thank our respected supervisors, **Dr. Kamal Kumar Mittal**, Assistant Professor, Department of Mechanical Engineering & **Mr. Ashutosh Yadav** Assistant Professor, Department of Mechanical Engineering, A.K.G.E.C, Ghaziabad for giving an opportunity to work under their supervision and guiding us throughout our project work. It has been an honor working under their guidance, without which this dissertation would not have been possible. The guidance and the valuable inputs provided by her helped us towards improving our thesis document. We extend our heartfelt gratitude to **Ajay Kumar Garg Engineering College, Ghaziabad**, for their invaluable support and provision of essential resources that greatly facilitated the successful completion of our project. The state-of-the-art equipment and facilities available at

A.K.G.E.C were instrumental in our endeavor, enabling us to conduct our research with utmost efficiency and precision. We are sincerely thankful to A.K.G.E.C. for their unwavering assistance and for fostering an environment conducive to academic excellence. We also thank all those who were involved directly or indirectly in the completion of the present thesis work. Lastly, but not the least, we would like to thank God for helping us to achieve this milestone.

## Letter of Participation

This is to certify that **Parikshit Singh**, a student of **Ajay Kumar Garg Engineering College, Uttar Pradesh** has participated in the **e-Yantra Robotics Competition (eYRC 2023-24)**.

He/She is a member of the team having the following team members:

1. Parth Suyal
2. Anushka Saraswat
3. Parikshit Singh
4. Aditi Rai

This team has participated in **Lunar Scout** theme.

e-Yantra is a project sponsored by MHRD, Government of India, under the National Mission on Education through ICT (NMEICT).

**Certificate of Merit:** awarded to finalist teams.

**Certificate of Completion:** awarded to teams for completing all the tasks of the competition.

**Certificate of Participation:** awarded to teams for partial completion of tasks in the competition.

**Letter of Participation:** awarded as an acknowledgement of participation on e-Yantra Letterhead.

### Theme: *Lunar Scout*

---

**Theme Description:** Through this theme, participants developed a Self Balancing, omni wheel based robot. They implemented controller techniques like PID or LQR to maintain the orientation of the robot using the sensor data from Inertial Measurement Unit, perform path traversal without colliding with the colonies. To achieve this participants developed Mathematical Models of their robot design using GNU Octave and then simulated them in CoppeliaSim. Further they fabricated the chassis using their choice of material and the electronic circuits of the robot and the remote controller using the provided electronics components. The control law was then implemented using the Embedded C. The robot was also equipped with the Hall Effect sensors to detect the polarity of the magnets placed in the colonies.

**Theme Learning:** *Euler-Lagrangian mechanics, State space modeling, Control techniques (PID, LQR), 3D designing, Physics engine simulations, Data filtering & sensor fusion, Embedded systems.*

**Team Learning:** The team has been awarded **Level 4** in the e-Yantra Robotics Competition (eYRC).

*This level indicates that the team was able to complete initial tasks (mostly Task 0, Task 1 and Task 2 out of the total 6 tasks)*
