Loopholes during the event:

The event ended successfully, but there is always some room for improvement. The major loopholes in the event were:

1. We were late in finalising the activities. The event passing was also delayed, it should have been done a month earlier, so that advertisement could start.
2. Posters, google form designing should have been completed within a week of activity passing. Content should also have been ready to circulate.

3. Venues were booked at the last moment. They should have been booked earlier and if special permissions and resources are required, they should also be informed priorly (like tent).
4. Every event co-ordinator should ensure the preparation including the material purchasing.
5. Flex, posters, ID cards, tickets, etc, must have been printed 20 days before the event.
6. Desk duty, class announcements should have been started 15 days before the event.
7. 1 week earlier, everything should have been finalised, like venues, refreshment, team involved, etc and for future, it is advisable that the event co-ordinators ensure the same, to avoid last minute chaos.
8. It is also advisable that a run through of the final performance is done 2 days prior to the main event in front of the faculty members and seniors, with a complete list of the members carrying out various responsibilities.(Performance, attendance, report, refreshments, etc).
9. Also, keeping the attendance in mind, every event co-ordinator should allot the responsibility of making PC to a VE Cell member from the day, the preparation begins to the day of the final event. He/ she should note, which members/ students are eligible for the PC, also noting down the time duration for which PC is to be provided .
