Department of Computer Science and Engineering

Department of Computer Science and Engineering at AKGEC was formed in 1998 with inception of the college. The Department provides an outstanding research environment complemented by excellence in teaching. Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of Computer Science. The department provides full support to MTech. scholars in terms dissertation guidance, lab facilities and access to international and national journals.

FDP Objectives

The objective of the FDP "AI for Future Workforce" is to introduce participants to the core concepts of Artificial Intelligence that are essential for meeting future workforce demands. The program aims to enhance understanding of industry-oriented AI tools and real-world applications while bridging the gap between academic knowledge and emerging AI-driven job roles. It also focuses on promoting skill development, innovation, and adaptability through AI technologies, along with creating awareness about the ethical and responsible use of AI in professional and societal contexts.
